SKILLS

- HTML & CSS
- Responsive Design
- JavaScript
- Git & GitHub
- Tailwind
- React.js
- REST APIs
- Typescript

PROFILE

As a recent computer science graduate from the University of Biskra with a passion for web development, I am excited to leverage my skills and experience to create engaging and user-friendly web applications, and I am eager to continue learning and growing in this field.

Currently, I focus on installing and testing user interface elements on responsive websites using React js.

PROJECTS

Furniture world

This store prioritize user experience, making it easy for customers to find and purchase the products they need.

- built with: React.js, Tailwind.

"Tempo" Weather App

Tempo is a straightforward web application that allows users to check weather forecasts for any city. Here's what it offers:

- Current Temperature: Find out the current temperature in the selected city
- Daily Forecasts: View upcoming weather conditions for the next few days
- Reliable Data: Powered by the OpenWeather API
- built with : HTML, CSS, Java Script

Coin wave

Coin wave is an app displaying real-time prices, 24-hour percentage changes, market caps, and historical charts for each coin.

- built with: React.js, Tailwind.
